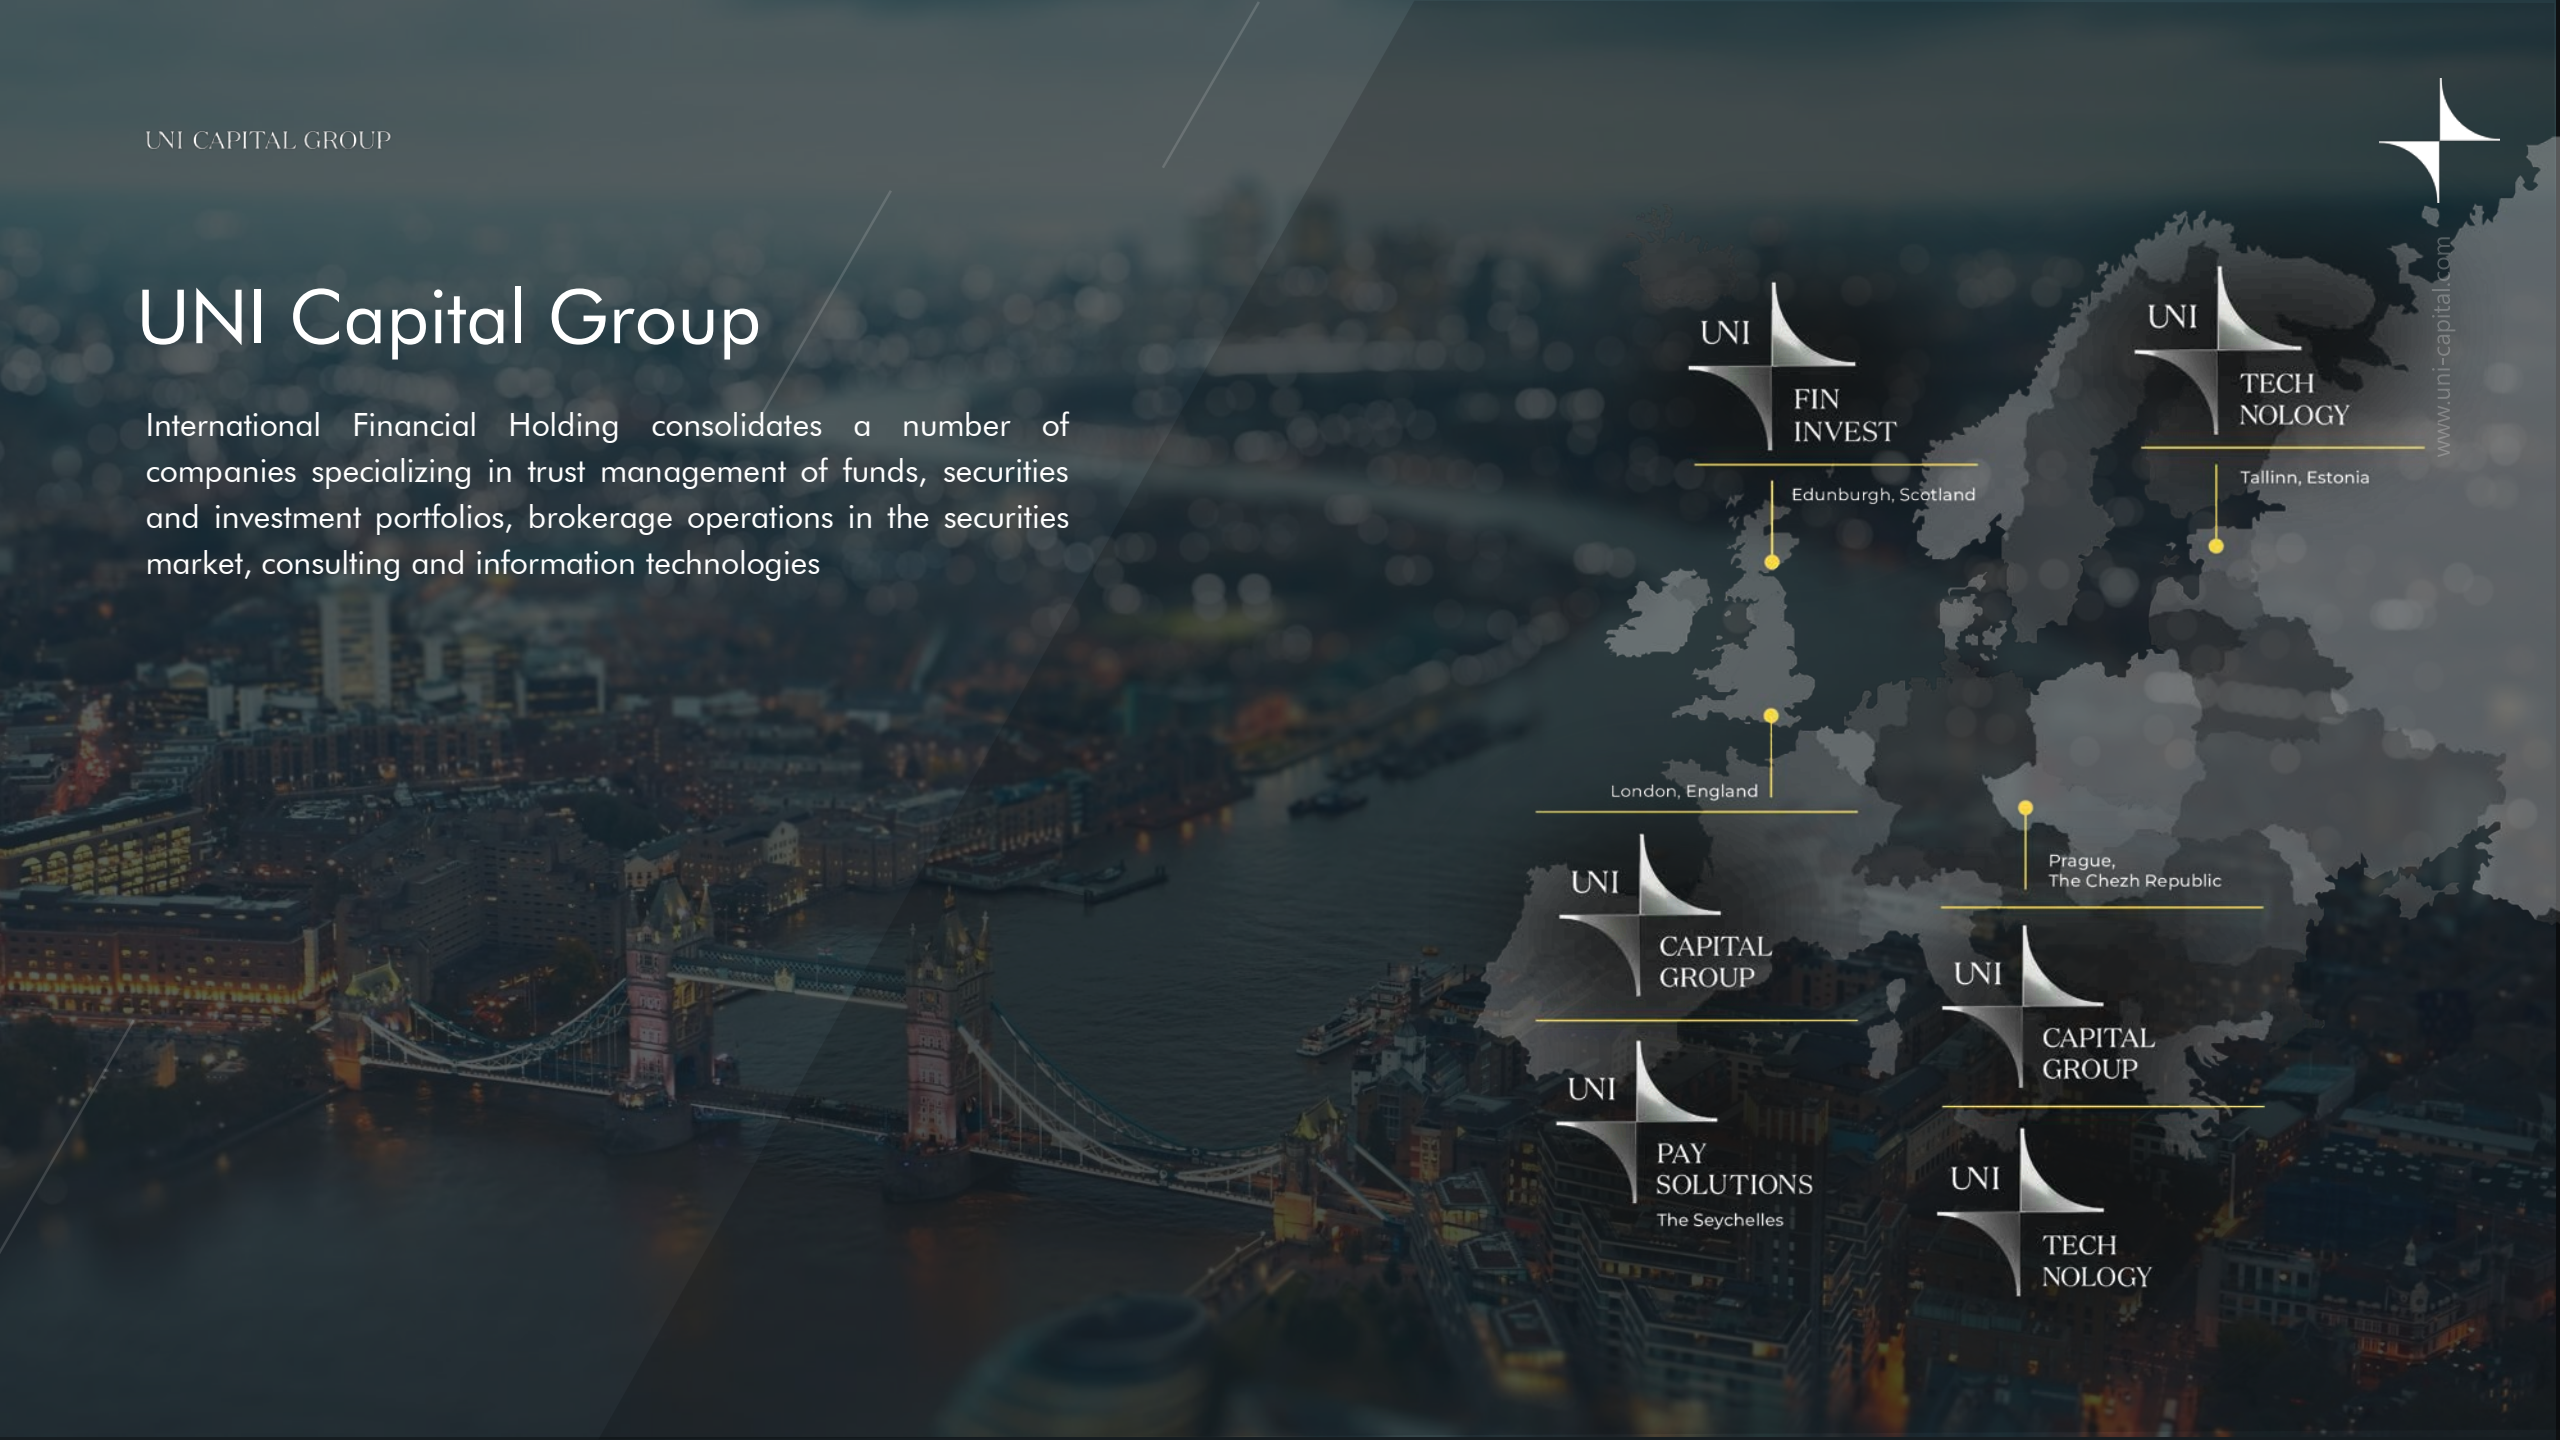
UNI Capital Group

International Financial Holding consolidates a number of companies specializing in trust management of funds, securities and investment portfolios, brokerage operations in the securities market, consulting and information technologies



Important historical events

UNI CAPITAL GROUP

2012

The Company is founded in one of the main financial and business centers in the world - in London, the UK. Since its foundation, the UNI Capital Group administers private and economic capitals, invests into upcoming global economic sectors.

UNI CAPITAL GROUP

2013

A new direction, the trust capital management of private investors, is launched. The UNI Capital Group raises the private investors' money and participates in investment projects on European and Asian markets. The investment decisions are made by the professional managers.

UNI CAPITAL GROUP

2015

After years of continuous and sustained growth, the UNI Capital Group becomes the Holding, and starts to fulfill the administration, coordination and development functions.
The UNI Capital Group Holding headquarters opens in Prague.

UNI FIN INVEST

2016

The UNI Capital Group Holding includes the UNI Fin Invest Company, which holds responsibility for investment storage, forecast and appraisal, operations insurance and trading.
The Company manages money, securities and portfolios. The same year it enters the market of debt investments and factoring.

Important historical events

UNI TECHNOLOGY

2018

The UNI Technology IT Company is established for technical and software support of the upcoming cryptocurrency direction. The Company is responsible for the Holding software, creates and develops the IT-tools for the blockchain technologies market.

UNI CAPITAL GROUP

2018

The Holding develops the SKY investment product to enter the private investors' mass market. The SKY program includes several investment packages with high return level, monthly investment payments, passive income and additional bonuses.

UNI TECHNOLOGY

2019

The Holding receives the licenses for providing the cryptocurrency wallet services and virtual currency to virtual currency and fiat money exchange. This expands the financing instruments of the Holding customers, allows quickly depositing, withdrawing and exchanging money, and tracking operations on your cryptocurrency wallet.

For private investors

Individual Investment Account
A way to save and increase a personal capital using the stock market tools.
The fund is formed using the funds of a large number of clients.
The investment decisions are made by a professional manager.

Chance to build your own business
You immediately get a ready-made and fully well-established infrastructure of a financial company. This gives you the opportunity to build your business without investin and wasting of your time and efforts on organizing the business processes.

Cryptocurrency wallet
The program stores your public and private keys, interacts with various blockchains to control, exchange and transfer funds worldwide.

For wealthy investors

Wellness management

Your personal consultant will develop a financial plan and investment strategy basing on your goals and priorities. It will help to circumvent the investment and marginal risks.

Trading on European exchanges

The investment objects are the companies on European exchanges. We create individual trust management strategies, taking into account the investment preferences of the client, the expected level of profitability and risk appetite. Analysts and traders with many years' experience and a decent reputation are working on the selection of assets.

Investing into large projects

We offer investments in large companies with a turnover of 10 million EURO per year and in business projects in the real sector of the economy. The foundation of a joint venture with the UNI Fin Invest Lp participation is a direct investment. As well as a debt financing, an equity participation, project financing, structured financing and factoring.

For corporate investors

Operations on the stock market

A full range of services for conducting operations with shares and assets on the stock and street markets. Access to foreign investors, organization of share repurchase, market making on foreign platforms and funds raising on security.

Structural products

The Company provides individually designed products tailored to the unique needs of the client. Hedging of currency risks and risks in commodity prices changes, improving the structure of revenue and expenses, and effective free cash management.

Operations on the bond market

Bonds allow qualitatively diversifying investment portfolios. With their help you can create strategies for stable capital growth with varying degrees of risk and profitability.

We offer support for trading operations and market making both, under local bonds and Eurobonds, and the development of portfolio in accordance with your individual needs.

Business with UNI Capital Group

This is a way to save and increase your personal capital using the stock market tools. The fund is formed by the funds of the UNI Capital Group Holding and investors in the ratio of 70/30. The investment decisions are made by the professional managers. The collective principle of work helps to reduce the cost for maintenance, and maintains a high level of capital management.
